

Twelve Angry Men - DATA

These 12 jurors who come from different backgrounds make conclusions based of the raw data or facts of the murder case.

These are:

- The accused is an 19 year old boy
- His father has been killed by a stab wound and a knife is found in his chest; the same knife which the boy bought from a nearby store.
- The neighbor below hears loud noise similar to a fight. He hears the boy shout, " I'm going to kill you!"
- Shortly after, the same neighbor hears a body falling.
- Boy has a history of mugging and knife fighting and at 15, attended reform school.

Additional facts:

- An identical knife was bought in a junk store in the same neighborhood by one of the jurors
- The neighborhood of the crime scene is a poor one.
